

# Ascom paging and telePROTECT Accessories

—Outfits at hand

*The accessories for the Ascom paging and telePROTECT handsets will make every day at work even easier. With the swivel clip your device is securely fastened, but is also easy to loosen. The leather cases protect the handsets while the security string keeps the carrier safe.*

## **Carrying alternatives**

Carrying the Ascom paging and telePROTECT handsets is easily done with the standard hinge-type clip or the convenient swivel-type clip mounted on your belt. You can also order a customized leather case with the swivel clip. Even though the Ascom handsets are robust, the case will protect your device from dust and rough handling even more. Available for extra security is an 80 cm long security string to be attached to the hinge-type clip.

## **Charging options**

You can choose between a single charger (a51 and a/p71) and a wall-mounted charging rack. The latter will load your handsets with power all at the same place. The inductive battery

Leather case with swivel clip

(IBP1B) for Ascom 914D/T is needed for the unit to be charged. You can also use standard AAA-batteries, if charging is not necessary.

## **Safety supplement**

Using the pull cord, an alarm will automatically go off, if the handset is forcefully taken from you. If you lose your pull cord string, you can order additional ones from Ascom.

## Carrying options

### About Ascom

Our vision is a world where the right information moves people forward. Our mission is to put the right information in the right hands at the right time so that people can make the best possible decisions.

We are a global provider of communication and collaboration solutions for the acute care, long-term care and enterprise sectors. Our solutions are based on intelligent integrations with software and hardware that are open source and compatible with third party solutions. Every single second, our systems generate large amounts of data, which we then turn into useful and actionable information. This helps us to bring data to life for people in the toughest operational environments, ensuring smooth, complete, and efficient workflows.

Ascom is headquartered in Baar (Switzerland), has operating businesses in 19 countries and employs around 1,400 people worldwide. Ascom registered shares (ASCN) are listed on the SIX Swiss Exchange in Zurich.
